

## **Accessibility declaration**

We, Music Travel by JM GmbH, would like to make our website accessible and in accordance with the applicable legal provisions. This is based on the Disability Equality Act (BGG), the Barrier-free Information Technology Ordinance (BITV 2.0) and the requirements of EU Directive 2016/2102.

### **1. Status of compliance with the requirements**

Our website is partially barrier-free. It largely fulfils the requirements of BITV 2.0 in conjunction with the EN 301 549 standard. Individual content and functions currently still have barriers.

### **2. non-accessible content**

The following content is currently not or only partially accessible:

- Not all images and graphics used in the design layout (theme) have complete, accessible alternative texts.
- There is currently no audio description for embedded YouTube videos.
- Some contrasts do not meet the recommended minimum values according to WCAG.

We are working on improving these points, among others, as part of the relaunch of our website.

### **3. preparation of this statement**

This statement was prepared in June 2025. The assessment is based on an internal self-assessment using automated testing tools and manual tests.

### **4. feedback and testing**

If you encounter barriers on our website or content is not accessible, we look forward to receiving your feedback. Please contact us at [info@musictravelhideaways.com](mailto:info@musictravelhideaways.com)
